Abrahams, B. H.: Ligation of external carotid artery for persistent nasal hemorrhage ..... *29

Abscess, blind peritonsillar, resulting in death from general peritonitis.....*446

brain .....*214

brain, of otitic origin.....488, 622

lung, following tonsillectomy.....*326

otogenous, of temporal lobe, disturbance of speech with..... 102

Adenoidectomy, under ether anesthesia, blood aspirated during..... *26

Adenoids, pharyngeal hypophysis and..... 731

Agranulocytosis, blood stream infection and 737

Allergy, advances in field of, as related to otolaryngology .....*573

Angina, blood stream infection, and agranulocytosis ..... 737

Ludwig's, anatomic and clinical study... ..... *159, 614

Anesthesia, choice of..... 351

Anotia, complete, combined with aplasia of tonsil ..... 610

Antrum, maxillary, lavage of, through natural orifice in infants.....*187

tumors of .....*605

Arbuckle, M. F.: Cicatricial stenosis of larynx .....*686

Arteries, ligation of external carotid artery for persistent nasal hemorrhage. *29

Atelectasis: See Lung

Attico-antrotomy, indications and prognosis of ..... 237

Barlow, R. A.: Otologic and other manifestations of a diet deficient in vitamins .....*629

Berry, G.: Dental caries in paranasal sinus infections .....*698

Blassingame, C. D.: Angina ludovici; an anatomic and clinical study.....*159

Blood pressure, alteration in activity of eighth nerve produced by rapid changes in ..... 110

BOOK REVIEWS:

Diseases of the Ear, Nose and Throat Medical and Surgical; W. C. Phillips. 624

Diseases of the Larynx; H. Barwell.... 122

Diseases of the Throat, Nose and Ear; D. McKenzie ..... 739

Nose, Throat and Ear; J. F. Barnhill. 504

Oto-Laryngologie avec applications at la neurology; F. J. Collet..... 122

Sinus Thrombophlebitis. Inflammatory Disease of the Venous Sinuses of the Dura Mater; A. Braun..... 740

Brain, abscess of.....*214

abscess, of otitic origin.....488, 622

advantages and dangers of diagnostic puncture of cisterna..... 238

Brain—Continued PAGE

anatomic and pathologic studies of central connections of vestibular and auditory mechanisms .....*230

intradural diseases in relation to rhinology and otology .....*193

new methods for early and differential diagnosis of intracranial complications ..... 101

radiologic signs which indicate extension of infection from the ethmoid and sphenoid sinuses to base of skull..... 241

tumors, diagnosis of.....*231

Broders, A. C.: Degree of malignancy of carcinoma of esophagus..... *78

Bronchi, cancer of..... 615

tracheobronchial tree in children, after tonsillectomy under general anesthesia *26

Bronchoscopy, massive atelectasis of lung following .....*520

Cancer, intrinsic, of larynx, operated on by laryngofissure .....*377

of esophagus, degree of malignancy of.. *78

of larynx; operated on by laryngofissure ..... 356

of larynx, several unusual cases..... 359

primary, of bronchi ..... 615

squamous cell carcinoma of larynx.491, 492

Cannula and trocar, two way antrum irrigating; modification of 2 other instruments .....*568

Cardiospasm: See Stomach

Caries, dental, in paranasal sinus infections .....*698

Carter, W. W.: Prevention of nasal deformities following submucous operation.*555

Cassady, J. V.: Massive atelectasis of lung following bronchoscopy.....*520

Catarrh, dry, of pharynx, anatomic investigations of ..... 454

Cerebrospinal Fluid, tension, advances in knowledge of physiology of.....*193

Cholesteatoma, experimental ..... 236

Cocaine, influence of natural glucosides on effect of ..... 108

Cohen, S.: Lower nasal deflection; a new operation for its correction.....*399

Colbert, R. M.: Removal of benign tumor of larynx with potassium bichromate.*715

Cysts, of maxillary sinus, formation and histologic structure .....*505

Dabney, V.: Osteomyelitis of frontal bone; report of 4 cases presenting problems in etiology and treatment.....*177

Deafness, contraction of visual fields in cases of progressive..... *12

functional significance of the round window ..... 347

marked deafened areas in normal ears.. ..... *151, 484

occupational ..... 346

progressive, report of committee on study of ..... 458

report of committee of national research council on results of investigation in institutes for deaf in United States regarding causes of impaired hearing.. 482

Deafness—Continued PAGE
statistical studies of children in public schools for the deaf..... 482
Delavan, D. B.: Some achievements in American laryngology and rhinology..*300
Diaphragm, phrenospasm and cardiospasm in mega-esophagus .....*156
Druss, J. G.: Histology and pathology of articulation of auditory ossicles..... *56
Duke, W. W.: Advances in field of allergy as related to otolaryngology during the years 1927-1928 .....*573
Dysphagia, treatment of, in tuberculosis of upper air passages; report based on 100 cases .....*424
Dyspnea, in child 1 year old..... 736

Eagleton, W. P.: Intradural diseases in relation to rhinology and otology; critical survey of recent literature.....*193

abscess of brain of otitic origin..... 488
Gaucher's cells in temporal bone; causal genesis of otosclerosis..... 609
histology and pathology of articulation of auditory ossicles ..... *56
inflammation of, in meningitis, based on study of 75 cases..... 477
infections, paths of infection into the meninges from latent.....*195
injuries of, in miners..... 346
invasion of interior of skull by malignant growths of temporal bone..... 236
middle, appearance of depth of external auditory canal called "ferme en bourse" sign of latent mastoiditis..... 730
middle, development of complications in different forms of acute inflammation of ..... 104
middle, tuberculosis of.....*339, 619
normal, marked deafened areas in.....*151
otospongiosa, metabolism rate in..... 735
physiology of, rôle of arches of Corti in hearing ..... 730
pictures of membrani tympani enlarged from 10 to 30 times..... 347
telephone and the..... 471
topography and physiology of cutaneous vessels of drum membrane (observations on living man)..... 454
Endocrine gland extracts, effects on asthma, hay-fever, etc..... 108
Esophagus, congenital stenosis of..... *66
degree of malignancy of cancer of..... *78
demonstration of nonopaque foreign bodies in .....*718
dilatation, trauma at birth cause of diffuse ..... 612
mega, phrenospasm and cardiospasm in.*156
tumors of .....*605
Ethmoid Bone, variable anatomy of, clinically important observations..... 350
Ethmoid Sinus .....*88
roentgenograms of .....*663
rentgenologic signs which indicate extension of infection from, to base of skull .....241, *638
Ethmoiditis, in infants and young children; with accompanying eye and orbital complications .....371, *386
Ethmosphenoidectomy, frontal, performed under local anesthesia.....*144, 370
Eustachian tubes, new ideas regarding physiologic effects of poor ventilation of, and suitable treatment..... 348
new instrument for catheterizing.....*332
